INTROB Hello, my name is _____ and I'm calling for Columbia University. We're conducting a study of how New Yorker's are doing in 2002 and we would like to include your household's opinions. It's a study that is conducted every couple of years. The information that you provide us will help legislators and lawmakers better understand the needs of the residents of the city. Your number was selected at random and everything you tell us will be strictly confidential. You don't have to answer any question you don't want to.

The interview is voluntary and you may withdraw at any time without any penalty. My supervisor may monitor parts of this interview for quality control purposes. If we come to any question that you don't want to answer just let me know and we'll go on to the next question.
